

## Things to Do

There are so many things to do in and around Boquete, Panama. Bird watching, Horseback riding, Hiking to Waterfalls or to see the elusive Quetzal, Coffee Tours (which is a must), White-Water Rafting, Rock Climbing or enjoying the spring like temperatures in Boquete and enjoying that book you wanted to read.

If you have a rental car and want to venture further out - **Machu de Monte**. If you are in good shape, give it a try, you won't be disappointed. It is located 12 kilometers south of Volcán at the tiny community of Cuesta del Piedra. From there go downhill, the turn is unmarked and will be on the left. The road to Macho de Monte is in between Restaurante El Porvenir and Mini Super Meinor. Less than 3 kilometers, passed the guardhouse for the hydroelectric plant and cross two bridges. Park your vehicle by the ranch on the right.

Walk down to the gaurdhouse and speak to the guard and he will let you know what path to take. I would not try to go it alone and even better if you have a guide with you.

The footage in this video is remarkable.
